## "Mystery Wines" experience for two people

On the menu for this sensory game:

- *3 glasses of wine per person*, with no name or origin displayed, but full of stories to guess and aromas to tantalize your taste buds. White, red, orange? It's up to you to investigate, glass in hand
- *2 Grapillettes to share*, our mischievous little plates, designed to accompany the mystery and make the exchanges sparkle.

A delightful experience, perfect for piquing the curious, surprising the connoisseurs, or simply spending a good time with friends, family, or a loved one.

At Grapille, we love it when wine tells its story in a different way. Here, it's your nose, and your good mood that leads the way.

Will you be able to read between the wines?
